being by ourselves. It has all been so wonderful and I can never thank you enough for being so sweet to me. All this I have mentioned has been grand, but the thing that stands out above everything is that never, this year, have we had a real fuss—we have never broken up. I am really proud of that. Although I did do one mean thing, one of my mistakes, we have come through it—all because of your grand understanding and because you control your Temper so well. This is one of the nicest things about your grand personality. You certainly deserve it all and I know you'll have it. Stay just as you are because that's the way I love you—best.

Darling,

How can I begin writing in your annual, or begin to try to tell you how very much you mean to me. This is the last time we will write in each other's annuals but the happiest time because we have found each other this year. She will not be going back to S.H.S., which has been the happiest days of our lives, next year but we will still feel the same way about each other even though we will be apart. We have had so much fun this year; our senior year has been perfect for me because of you. I know that in the future there's more in store for us. I'll never forget double-dating, getting in trouble, parties, picnics, dances, trips, and just

The Student Participation Committee

Stephenville High School

Stephenville, Texas

In preparing this edition of the *Yellow Jacket*, the staff has endeavored to leave within the covers of this book a record of the activities that have made 1944-1945 a pleasant and interesting year for the students of Stephenville High School. May these memories in later years be refreshed by glancing through these pages.

Hi! Buster,

Deris is to a swell guy who has really made a record for himself up here at S. H. S. You've had plenty of breaks and you'll have a lot more because you deserve them. This year up here with you has really been grand. My only regret is that you won't be here next year, but you have to go on so you will have all the happiness and success I wish for you.

Dear Buster,
We've known each other just about as long as I have lived here and it really been grand. You have that leadership ability and splendid personality that has really made you the outstanding student of high school. Remember the fun we had doing - dating when we were together in Jr. High and other times. I shall always remember how swell you have been not only to me but to everyone you know in contact with. May your future life hold in store for you the very best - because you certainly are deserving of the best - hope you'll like H. & M. Remembering a mighty small person
E. J. C.

Because of her fifteen years of untiring devotion to Stephenville High School, her love and interest in the students not only during the association in school but also throughout life, her willingness to co-operate at all times, and her happy attitude toward all problems, the staff gratefully dedicates this, the ninth volume of the *Yellow Jacket* to Miss Hicks.

ADMINISTRATION

TO THE STUDENT OF STEPHENVILLE HIGH SCHOOL

It is the glorious privilege of our generation to be the defender and savior of human freedom. Upon us the full responsibility has been placed to protect not only our own, but the generations that lie ahead from tyranny and slavery. It is our responsibility to defeat completely the enemies of freedom, the enemies of progress. This we must do; this we will do. This is the challenge that inspires the youth of today to study seriously the problems of the world and to prepare themselves to take their proper places in the world in order that their influence may be felt in the solution of these universal questions.

TO THE SENIOR CLASS OF 1945

You are to be commended for having completed your high school work. Many of you will go to college; others will go to technical or commercial schools and still others will go to work. Whatever you do I feel sure that you will feel that you have been benefited by having graduated from Stephenville High School.

Look about you and see what our graduates are doing. We are proud of them and you. You too can and will accomplish great things for yourselves and others.

As old 1945 rolls around, we seniors are getting the jitters. When we graduate in the spring, we will reluctantly leave the school that has meant more to us than mere books and assignments. Associations with teachers and friends whom we have come to love, a glimpse of the world's lessons and opportunities, fun and happiness, mixed in with a bit of disappointment and heartache, all tossed together have made up three glorious years in our lives.

As class activities we have participated in an annual play each year. The individual members of our class have been active in all athletics, clubs, and general deviltry.

One less number, I think, and several going into the service. O. F. Lewis, George Campbell, Public Trust, Harry Owens, ^{Wm. A. Williams} R. L. and E. Lewis, Rex Owens, Ralph K. and Fred Smith, A. I. Butler, Wayne G. and J. R. Ryland.

Although we hate to leave high school, we are looking forward to testing the truth of Browning's line:

The best is yet to be."*

The class of 1946 began making history in September of 1943 under the direction of Mrs. Porter. The important events in our sophomore year were a part in two bond selling contests, a round table discussion of "Our Town" given in chapel, and a three act comedy play.

There were some changes as the second chapter of our history began. The class increased from 73 to 88 and our new sponsor was Mrs. Isbell. Class election and ordering rings were the highlights of the first term. A three act mystery play, a class picnic and the ever important junior and senior banquet were given the second term.

Our team who started their record in athletics as sophomores added much to it this year; many others joined them.

We have had a very good year at our school. Our school was better than the previous two years have been.

During September seventy three happy and noisy sophomores enrolled in Stephenville High School. Soon the strangeness of the school left, and they found their place and took great interest in it.

The sophomores have been active in athletics this year. Bob Alexander lettered in football, which is an unusual honor for a sophomore. A number came out for basketball and track.

The sophomores have presented a three act comedy, "Criss Cross," under the direction of Mrs. Bailes. They have participated in the programs given for the school. They were always at the pep meetings and football games helping the Jackets.

They have enjoyed the first year in S. H. S. and are looking forward to making the junior and senior years both educational and enjoyable.

SEASON REVIEW

The Jackets, working with Mr. Hassler, the new coach, and with several new players, had a successful season this year. After winning a 19-0 game with Hamilton, they were even more victorious over a very good team from the District of Columbia with the Nationals and the Washington Redskins. The players who were named All-Americans were: Bill Brown, center, and Bill Brown, tackle. The 7-0 and 19-0 games were played last week. Jackets battled Coleman, at a non-conference eleven, to a 13-13 tie.

Couch Haessler came to our school not only to make winning teams out of the Jackets who had few boys experienced in games, but he came also to build boys into men who could play well the game of life. His grand work was the result of determination and the fine handling of his students. He has done a good job this year and will do so in the future.

The first district game with Cisco was a hard battle. Luck was with the Indians who scored on the kickoff. The Jackets rallied and late in the first quarter drove eighty yards to the end zone. Then failing to make the try for the extra point they were defeated 7-6.

In the next game with Weatherford the Jackets were tricked with punts and were defeated 21-0. Failing to recover from the injuries the other injured players were out of the game. Breckenridge the district champs, 73-0.

From Dublin their next was the Jackets who now operated with a new formation won to the score 20-0. Learning how to defend, they went to Mineral Wells and returned with a 14-0 victory. Next game they played was at a low the Ranger Bulldogs were not defeated. Hall Field and in rain and cold.

We her praises ever sing.
Stand and cheer her name once again;
Loudly may the echoes ring.

Fill a glass for happy times,

Always holding deep in loyal hearts
The spirit of the Gold and Blue.

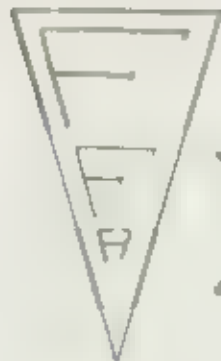

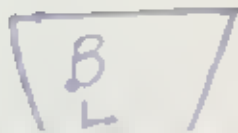

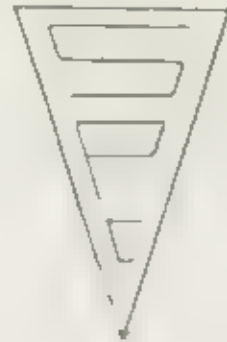

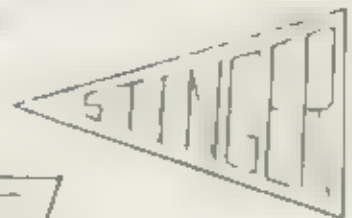

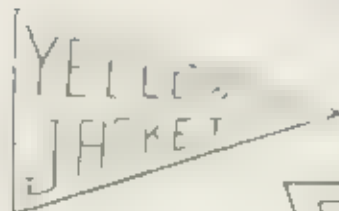

To the Blue—to the Gold
To our school and its glorious history;
To our faith—to our zeal
To the days we remember so joyfully.

The first edition of the *Yellow Jacket* was published in 1937. Eight volumes have previously been published, and we are now presenting the ninth volume of the *Yellow Jacket*.

In October the Student Participation Committee elected an editor, assistant editor, and business manager. These three ascertained that in spite of war-time conditions a yearbook could be published. Then the remaining members of the staff were chosen.

Work was immediately begun so that we might be able to have the book we are now presenting to you.

In order to secure enough funds for the production of this yearbook, the staff collected advertisements from business establishments and presented a Christmas program December 19 in which the school favorites were presented.

We, the staff, wish to express our appreciation to Miss Eoff, Mrs. Smith, and Miss Hicks, our sponsors, for their patience, kindness, and wise supervision throughout all efforts put forth in making possible this, the ninth publication of the *Yellow Jacket*.

Dear Baxter,

I have not known
you very long but I have
found you to be a swell

luck to you,

Dear Baxter,

This may be the
end of our high school
days but it can't be
the end of our friend-
ship. I think you are
really tops in this
school. I can never
forget our times
together. But, no bull,
I really wish you
the most happiness
and success in everything
you desire. See you
at A.M. "Tucker"

Hi Baxter,

I have really
enjoyed going to
school with you
all these years. May
you always be as
swell a guy as
you are now.

Ruby Stephens

Dear Baxter-

I can never forget all the good times we have all had together. I think our bunch has been so close together - of course, we have always teased but that was also part of it all. Always remembered all of those. Grad School parties and then our dances. It has all been wonderful and I hope you will never forget me. Good luck and all the success in the world. Just another friend,
Kate

Dear Harold I,
Naturally I do not
know you well but
I do like you. I liked
you thoroughly the
first time I saw you.

(Like at first sight I
guess). If I liked you
right at first I don't know,
but after seeing you here in
high school I can truthfully
say I like your disposition.
You seem to have a serene
air about you that is very
commendable. Serene people
usually have happiness through-
out life.

I'd better stop as I'll take up
too much space.

your friend,
Margaret Evans
